The sessions are not intended as a formal lecture format and should be interactive and relevant to exam material, such as MCQ work and viva type topics in order to give an indication of the type of material covered in the exam.

Speakers can circulate material in advance to departmental secretaries for SHOs to prepare.

If required, please contact the post grad centre at NMGH (0161 720 2720) in advance to request PowerPoint, copying, etc.

The tutorial programme is designed to run as a ½ day programme separate from the primary course.

Inevitably with a programme over 12 months, changes will occur, therefore the master copy will be kept at NMGH Post Graduate Centre and the NW school website.
